

SHRI ATAL BIHARI VAJPAYEE MEDICAL COLLEGE & RESEARCH INSTITUTE

DEPARTMENT OF DENTISTRY

SL NO	NAME OF FACULTY	TITLE OF PUBLICATION	JOURNAL
1	DR PUNITHA P G	Comparative evaluation of the effects of protaper, HERO shaper, GG drills, and Hyflex files on cervical dentine thickness and root canal volume by computed tomography- An Ex vivo study	Journal of Dentistry Bhavnagar University May 2015
2	DR PUNITHA P G	An in-vitro evaluation of antibacterial activity of medicinal plants and calcium hydroxide against enterococcus faecalis by modified direct contact test.	Indian Journal of dental sciences june 2014 issue 2 vol 6
3	DR PUNITHA P G	Smile Rejuvenation: A Case Report	Journal of conservative dentistry 2014;17, issue 5, 495-498
4	DR PUNITHA P G	An in vitro comparative evaluation of micro leakage of silorane based resin composite versus posterior nanohybrid composite in class II MOD cavities using different restorative techniques.	Journal of dental sciences (RGUHS)june 2012 vol-4 issue-2
5	DR PUNITHA P G	Evaluation of the adaptation of resin-based sealers epiphany, AH plus and AH 26 to the root canal dentin by scanning electron microscope.	Indian journal of stomatology, vol2, issue 4Oct-Dec 2012
6	DR PUNITHA P G	A comparative evaluation of the effect of low pH on surface hardness and microstructure of white MTA and white Portland cement.	Journal of dentistry, Bhavnagar university Jan 2012
7	DR PUNITHA P G	Antibacterial activity of medicinal plants against E-Faecalis by modified direct contact test	Journal of dentistry, Bhavnagar university vol 2 issue 2 May 2012
8	DR TEJASHREE R	The Effect of Magnesium Lozenge on Pain, Oedema and Trismus after Impacted Third Molar Surgery: A Prospective Randomized, Double-Blinded, Placebo-Controlled Study	Indian J Dent Educ. 2021;14(2):41- 46
9	DR TEJASHREE R	Incidence and Antibiotic Sensitivity of Anaerobic Bacteria in Dentoalveolar Abscess of Diabetic and Non-Diabetic Patients: A Cross Sectional Comparative Study,.	J Res Med Dent Sci, 2020, 8 (7): 428-434

10	DR TEJASHREE R	The Effect of Flurbiprofen Lozenge on Pain, Oedema, and Trismus after Impacted Third Molar Surgery: A Prospective Randomized, Double-Blinded, Placebo-Controlled Study.	Sch J Dent Sci, 2021 Jun 8(5): 160-165
11	DR TEJASHREE R	Anaerobic Organisms and Its Antibiotic Sensitivity in Diabetic Dentoalveolar Abscess – A Cross Sectional, Descriptive Study.	Ann. Int. Med. Den. Res. 2021; 7(2):DE01-DE06
12	DR TEJASHREE R	Isolation and identification of anaerobic organisms in dentoalveolar abscess: A descriptive study	International Journal of Applied Dental Sciences 2021; 7(1): 16-20
13	DR TEJASHREE R	The Effect of Magnesium and Zinc Lozenge on Postoperative Sequelae after Third Molar Surgery: A Prospective Randomized, PlaceboControlled Study.	Research & Reviews: A Journal of Dentistry. 2021; 12(2): 10–18p.

ON GOING RESEARCH

SL NO	NAME OF FACULTY	TITLE OF RESEARCH	STAGE
1	DR PUNITHA P G	AN SEM EVALUATION OF THE COMBINED EFFICIENCY OF XP-ENDO FINISHER FILES AND THREE CHELATING AGENTS AS FINAL IRRIGANTS ON THE REMOVAL OF SMEAR LAYER- AN INVITRO STUDY	
2	DR PUNITHA P G	INVITRO TIME DEPENDENT EFFICACY OF CHITOSAN NANOPARTICLES IN THE REMOVAL OF SMEAR LAYER FROM THE DENTINAL WALLS WITH SCANNING ELECTRON MICROSCOPE
